## **DETAILED ACTION**

### ***Status of the Claims***

1. This action is in response to the application filed on August 17, 2001. Claims 1-17 are pending.

### ***Priority***

2. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Japan on December 21, 2000. It is noted, however, that applicant has not filed a certified copy of the Japanese application as required by 35 U.S.C. 119(b).

### ***Election/Restrictions***

3. This application contains claims directed to the following patentably distinct species:
  - I. Claims 1-13 disclose request for approval of an electronic credit note, as shown is Figure 5;
  - II. Claims 14-17 disclose request for deferment of payments and generate an electronic debit nodes, as shown in Figure 10.
4. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.
5. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

Art Unit: 3694

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

6. The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

7. Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
